VIRTUAL LABORATORY

Objectives:

1. To provide remote-access to simulation-based Labs in various disciplines of Science and Engineering.
2. To enthuse students to conduct experiments by arousing their curiosity. This would help them in learning basic and advanced concepts through remote experimentation.
3. To provide a complete Learning Management System around the Virtual Labs where the students/teachers can avail the various tools for learning, including additional web-resources, video-lectures, animated demonstrations and self-evaluation.
